Or register your interest to be notified:

<https://apply.legalandgeneralgroup.com/register/>

It teaches you how to apply learning in industry, so not only are you learning how to be a software developer, but you are also learning how to be a software developer in a work environment.

Kieran (Software developer apprentice since 2019)

I am a huge fan of apprenticeships. For me there is no better way to learn than by doing, and apprenticeships provide you a structured framework in which to gain both skills and experience.

Derrick Hastie (Chief Technology Officer)

Recently, my manager gave us with the opportunity to work with LGIM's CTO on a presentation that he delivered to a large audience of students. This has been a great challenge and allows me and the other apprentices to feel welcome and valued here at LGIM.

Billy (Software developer apprentice since 2021)
